

Marine Oil Spill

Forensic Investigation Report

The investigation pipeline completed without identifying a decisive attribution candidate. Evidence convergence and limitations are documented in the sections below.

STATUS	COMPLETED
INVESTIGATION	inv-c2f9a0cb-406
SIMULATION	6ab1af2cce377a4d97c36ee9
SPILL LOCATION	7.5000°, 75.0000°
SPILL TIME	2026-09-21 22:26:52 UTC
INITIATED	2026-09-21 23:12:02 UTC
COMPLETED	2026-09-21 23:12:06 UTC
SEED	26143

Report aggregated from the recorded investigation state. Every figure carries provenance – controlled or simulated data is always labelled. Scores are composite likelihoods for the search window and are not probabilities.

ATTRIBUTION INCONCLUSIVE

Composite score: 0.0% Margin: 0.0% Decisive: No

no candidate vessels survived filtering within the search window/radius

AIS reconstruction returned no candidate tracks to score

Data basis: MIXED

03 SAR Detection
